Hi <<First Name>>,

I can't believe it is December already. While I love Christmas songs, it feels like we've had Christmas since August. I remember seeing Christmas merchandise showing up in Costco that far back.

By September, we had ads showing up on TV, although they were a little cloaked. Right after Halloween, we were seeing trees decorated and lights showing up on houses. Thank you, Instagram!

Even though I think some of this is a little early and dilutes the spirit of Christmas, I do love hearing Christmas songs. For me, they are peaceful and calming. Christmas music helps bring back some good memories for me in life.
